

CONGRATULATIONS ON YOUR PURCHASE!!!

This product carries a Lifetime Warranty against defects from the manufacturer.

ATTN. AMAZON, EBAY & WALMART BUYERS:

IF AN ITEM ARRIVES DAMAGED, DO NOT FILE A RETURN REQUEST – SIMPLY SEND US A MESSAGE VIA AMAZON, EBAY OR WALMART, OR EMAIL US AT THE ADDRESS BELOW, AND WE WILL MAKE ARRANGEMENTS TO HAVE THE SHIPPER SEND YOU A REPLACEMENT FREE OF CHARGE!

INSTALLATION:

Installation normally takes a few minutes for this product. While no tools are required for installation, you may need to lay or kneel on the ground to install it. We recommend that you use a large piece of cardboard or a large towel to avoid getting dirty. The provided rubber grommets are not necessary for all vehicles, but some require them for a snug fit. If required, place grommet into the factory mounting points in the lower bumper before Step 1.

Step 1

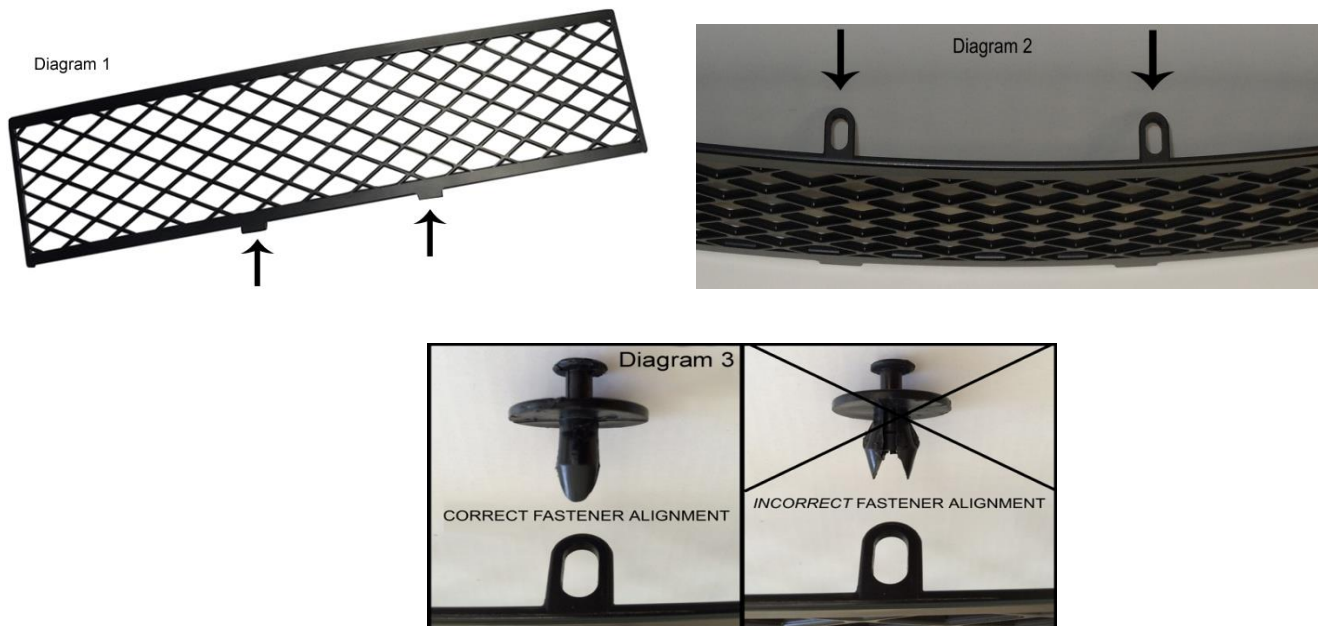

Insert the lower grille into the opening at a vertical angle and insert the tabs (See Diagram 1) into the openings in the lower bumper. Most vehicles allow grille access from the front.

Step 2

Tilt the grille up until the upper tabs (See Diagram 2) are aligned with the upper tabs on your bumper. Make sure that the provided fasteners are aligned parallel with the openings. (See Diagram 3)

Step 3

Secure the upper grille by inserting them from the top of the bumper down through the factory mounting points down through the tab openings of the grille. Once inserted, push the plunger to expand the fastener and secure the grille to the bumper.

*Some vehicles may have a plastic factory grille insert that needs to be removed before installing this new grille. That plastic insert may be fastened with screws on top, which require tools to remove.

IS THIS ITEM NOT WHAT YOU WANTED? NO PROBLEM – SEE BELOW!!!

We want you to be happy with our service and selection, and we strive for 5-STAR FEEDBACK from every customer. To return this item, simply call or email for a Return Merchandise Authorization #, then ship back your UNUSED item to us for a refund.
