

Thank you for your purchase of the
VERTICAL DOORS INC. SYSTEM

Please Note: These hinges have extra holes so that they will fit the C5 or C6 Corvette

Even though the hinges will fit both models, the kit overall will not. Please Refer to the packing slip on the outside of the box or your original invoice to see which vehicle the kit enclosed is for.

Please see figures 1 and 2 below.

Figure 1:

On the C6 Corvette, you must trim a bit more than our previous kit.

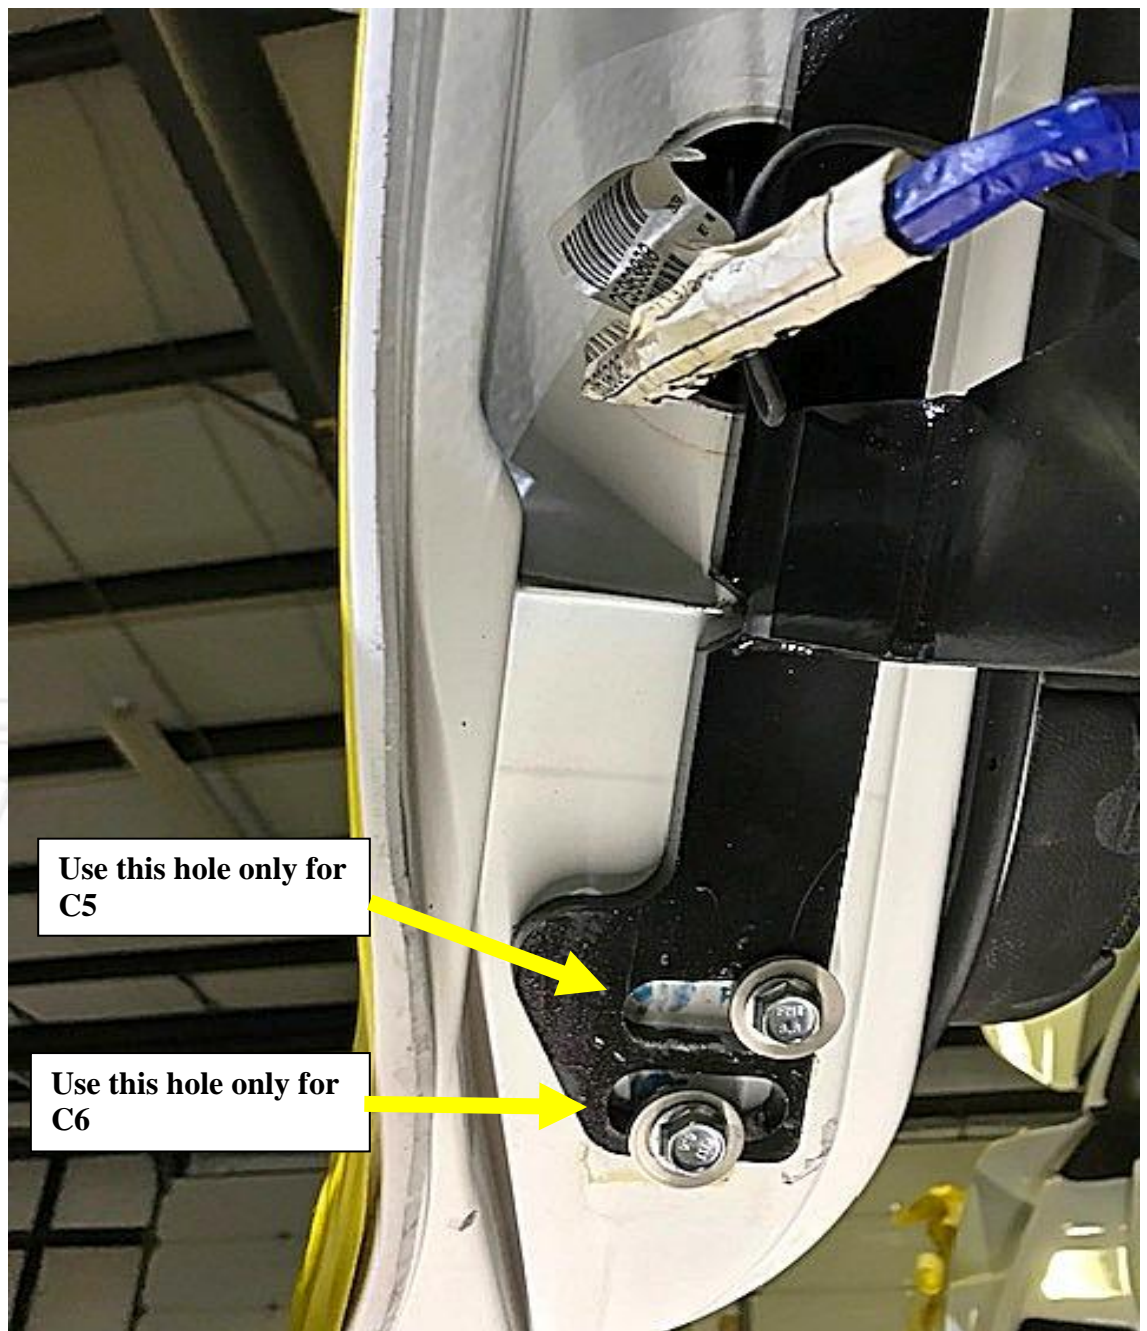

The figure shows the fender cut for our previous kit, as in the directions, and the line is the additional trimming that needs to be done.

You also need to re-enforce the fender by adding a bolt and nut to the hole pictured.

Figure 2:

Use one slot or the other depending on if the car is a C5 or C6

Do Not use both holes, this customer made a mistake

VERTICAL DOORS, INC.
